

# Are you a supplier?

**We'd love to hear from you.**

**Marinus Link** and supporting transmission developments are considered key components in Australia's transition to a clean, low cost and reliable energy future. With backing from the Australian and Tasmanian governments, we will offer opportunities for suppliers across the nation to support the following developments:

- ◇ Marinus Link - a proposed 1500 megawatt HVDC underground and subsea electricity interconnector between Tasmania and Victoria
- ◇ Supporting transmission developments in north-west Tasmania.

**MARINUS**
